

ENVIRONMENTAL PROTECTION TECHNOLOGIES

Watertight solutions

AWAS Biological sewage treatment plants

- Farms
- Houses and housing estates
- Resorts
- Motels / Hotels
- Municipal water treatment for cities / villages

AWAS Pumping stations

- Household sewage
- Rain water / waste water
- Drainage water
- Industrial waste water

AWAS Water recycling

- Car washes
- Equipment washes
- Self-service washes
- Lorry and tracked vehicle washes
- Military vehicle washes
- Special vehicle washes (railroad and vehicle tankers, airplanes)

AWAS Landfill and waste dump leachate management

- Technologies based on nanofiltration, ultrafiltration and reverse osmosis
- Membrane technologies

AWAS Industrial waste-water treatment plants

- Refineries
- Seaports and airports
- Heavy industry, metallurgical industry, rolling mills, steel mills
- Food processing industries - abattoirs, slaughterhouses, meat processing plants, dairies
- Power plants, heat and power generating plants

AWAS Services and Control Systems

- Separator service
- Pumping station maintenance
- Waste-water treatment plant operation
- Hazardous waste management
- Monitoring systems for pumping and waste-water treatment plants
- Visualisation of sewage and industrial waste treatment

AWAS SK Filterless circulation-coalescence separators

- Roads
- Ring roads
- Motorways
- Parking lots

AWAS Water treatment plants

- Potable water purification units
- Industrial and technological water treatment systems
- Cooling water treatment
- Mobile water treatment stations for emergency applications (natural disasters)

AWAS - H Filterless coalescence separators of high efficiency

- Petrol stations
- Petrol depots
- Repair shops
- Power plants
- Industrial applications
